

Sameh Ashraf

Full-Stack Developer

sameh231115@gmail.com • +20 109 782 9089 • Cairo, Egypt • [LinkedIn](#) • [Portfolio](#)

SUMMARY

Full-Stack Developer specializing in React.js, Next.js, Node.js, and .NET with experience delivering production-grade systems for government, military, and startup sectors. Proven track record of building scalable applications, optimizing performance, and managing full software lifecycles from development to deployment.

WORK EXPERIENCE

Full-Stack Developer — ITDA, Cairo

Nov 2025 – Present

- Built RESTful APIs using C# / .NET and SQL Server for a nationwide digital services platform.
- Developed and deployed the platform using Next.js and TypeScript, currently serving multiple government offices across Egypt.

Full-Stack Developer — Egyptian Military, Cairo

Jul 2024 – Sep 2025

- Served as sole developer for a secure desktop application used in active operations, built with C#, Entity Framework, and SQL Server.
- Designed RDLC reports enabling detailed operational analytics for decision-makers.
- Managed full lifecycle: development, testing, deployment, and live production support with zero downtime.

Full-Stack Developer — Bo-chat, Cairo

May 2024 – Present

- Built and maintained backend APIs for a live social media app on Google Play using Node.js, Express.js, and MongoDB.
- Implemented real-time messaging features using WebSockets.
- Developed the company's public portfolio website, boosting online presence.

PROJECTS

Cairo Chamber of Commerce — POS APIs | Node.js, SQL Server

Built secure, scalable APIs handling 10,000+ monthly requests at 99% reliability. Optimized SQL Server queries, improving data retrieval performance by 40% and reducing server load.

ITDA Digital Services Platform | Next.js, TypeScript, C#, SQL Server

Full-stack platform delivering e-government services across multiple national offices in Egypt.

Bo-chat Mobile App Backend | Node.js, MongoDB, Express.js REST

APIs for an Android/iOS social media app, live on Google Play.

<https://play.google.com/store/apps/details?id=com.pandaoracle.bochat>

Bo-chat Portfolio Website | HTML5, CSS3, JavaScript Front-

end website for a social media company.

<https://bo-eg.online>

Egyptian Military Desktop App | C#, Entity Framework, SQL Server, Windows Forms, RDLC

Enhanced and maintained a secure military desktop application: updated legacy features, built new modules, and owned the full release cycle.

EDUCATION

B.Sc. in Computer Science — Benha University, Qalyubiah

Jun 2023

GPA: 3.03 / 4.0

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, C# / .NET, Entity Framework, WebSockets

Databases: SQL Server, MongoDB

Desktop: Windows Forms, RDLC Reports

Tools: Git, GitHub

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Adaptability
